### How to Import Favourites and Listing Carts

In REALM™, you can import both your Favourite Listings and your Listing Carts from Stratus V3.

Here are the steps **to import your listing carts into REALM™**:

1. Click on your profile avatar and choose **Settings**.

2. Choose **Stratus Lists** from the left-hand menu.

3. To import **individual listing carts** one at a time, click the Import button to add the Stratus V3 listing cart to REALM™.

4. To import multiple listing carts at once, activate the checkboxes on the listing carts you wish to import and click Import Selected.

**It is Important to note:** The Import Selected feature will save all searches to your contact card and not to the client contact cards.
